

RescuePack Pro Industrial Rescue system

WK35

Comprehensive system for lowering and lifting.

RescuePack[™] is a unique and completely self-contained rescue system. It has been developed with and is extensively used by UK Fire Services and other industrial rescue teams.

RescuePack[™] is designed specifically for rescue. It provides for the safety of the rescuer at all times and allows for the quick and easy recovery of the casualty from any vertical situation. The casualty can be raised or lowered and RescuePack[™] has been proven on applications from tower cranes to confined spaces.

RescuePack[™] has three main components at its core; the award winning Phoenix harness, the RescueHauler auto-locking device and the innovative Hurricane Pro[™] rope grab. These and the other components are linked together with Tectra low-stretch rope, which includes sewn terminations, eliminating the need for knots.

RescuePack[™] Pro includes:

- Phoenix Harness x 2
- RescueHauler Auto-Locking Device x 2
- Hurricane Pro[™] Rope Clamp x 1
- X-it Harness x 1
- RescuePro Pulley x 1
- Twin Lanyards x 2
- Tectra Ropes 11mm: Gold 50m x 2; White 50m x 2
- Webbing Slings (Protected): 60cm x 2; 120cm x 2
- Wire Strops: 1m x 2; 2m x 2
- Oval Karabiners x 12
- Cascade Rope Edge Protector x 1
- Kit Bag x 1

Optional extra:

- Casualty Attachment Pole x 1
