

Screwlink standard 8mm**CSN08**

Commonly used for interconnections in fall arrest and rope access systems.

8mm steel standard screwlink offers high strength for its weight.

More secure than karabiners or safety hooks.

We regard them as essential if there is any possibility that the connector may be cross loaded.

Screw barrel must be fully closed during use.

**Specifications:**

NB: specifications and colour may change without notice.

Size: 8mm

EN Test Mass:

Loading: 35kN Major 10kN minor
